## Dog and Cat Pet Portrait Designs

Need a [Special Present](#) for a Pet Lover? or

Want a [Beautiful Portrait](#) of Your Pet?

### Commission Your Very Own Oil Painting

Your pet portrait is painted from a photograph (just the head and shoulders).

The oil paint gives the final portrait a deep, rich finish. The final painting will be about A4 size, and painted on 250g/m<sup>2</sup> high quality acid-free paper.

The portrait can be framed, or mounted and framed to your own taste or décor.

**Please note** - The drying time for the portrait is about 3 weeks.  
Oil paints take a while to dry!

Do you have a lovely photo of your pet but the background is a mess?  
This is the ideal way to make use of your photo!

**For the best result** – the portrait is painted from your photograph. Choose a photo that is not only cute but actually **looks** like your pet to avoid disappointment.

**100% Satisfaction Guaranteed**
